

Figure S1. Transient transfection expressions. miRNA expressions in (A) CD44⁻/EpCAM⁻ and (B) MKN28 cells after transfection with pre-miRNA-19b/20a/92a; miRNA expressions in (C) CD44⁺/EpCAM⁺ and (D) SGC7901 cells after transfection with pre-miRNA-19b/20a/92a antagonists. Compared with control group, *P<0.05, **P<0.01.

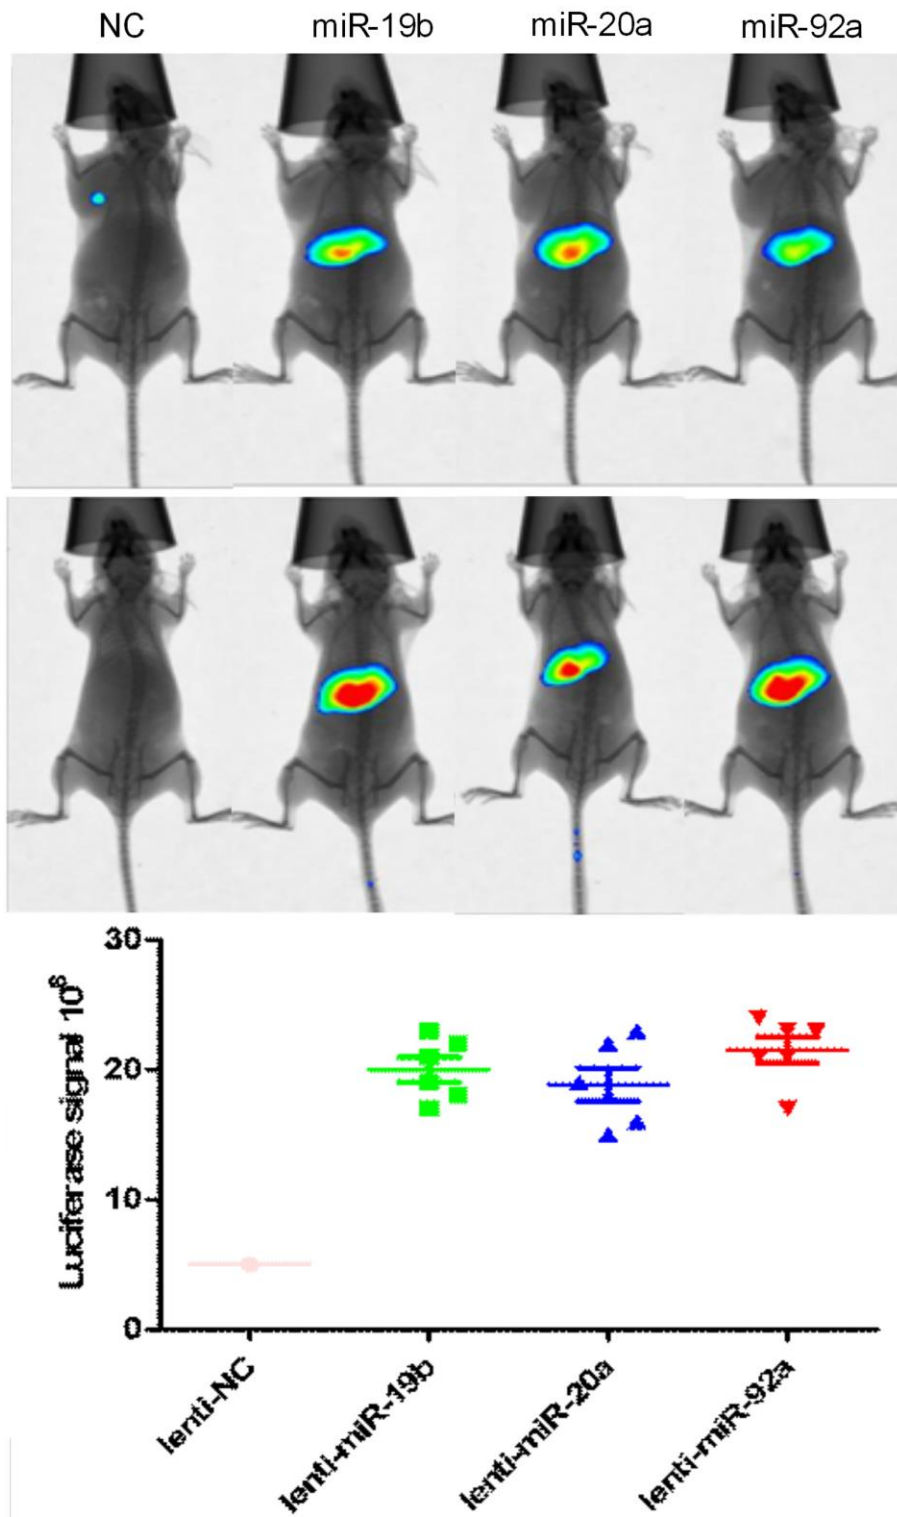

Figure S2. Fluorescence signals of tumors in NOD-SCID mice.

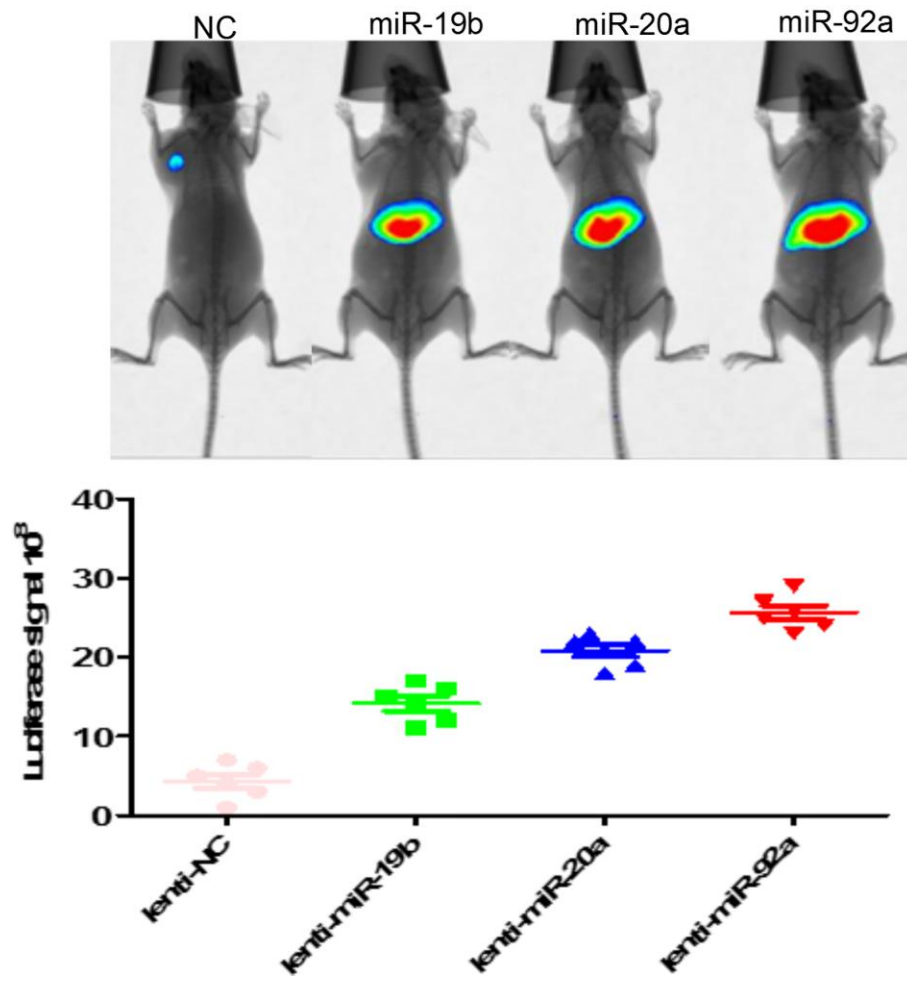

Figure S3. Tumor formation in nude mice.

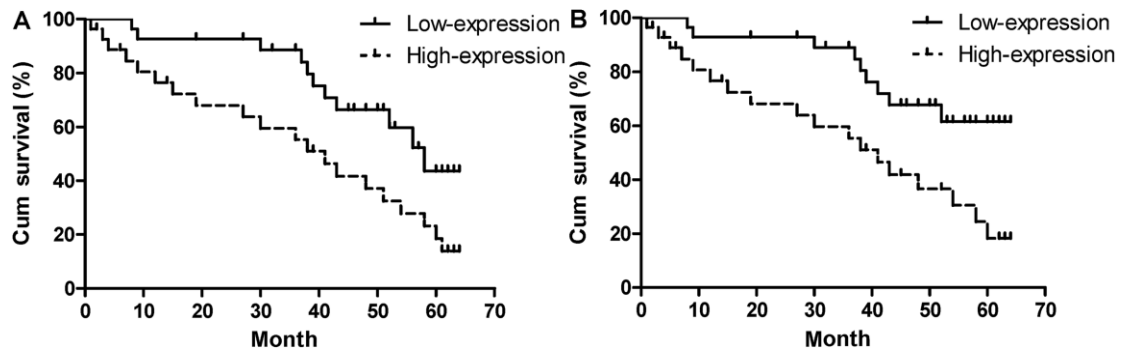

Figure S4. Survival analysis results of (A) miRNA-20a and (B) miRNA-92a.
