

Figure S1. Kaplan-Meier survival curve of UCEC patients with high/low level of FBXO17 was drawn based on the TCGA database. UCEC: uterine corpus endometrial carcinoma; TCGA: The Cancer Genome Atlas.

Figure S2. PPI network of FBXO17 downloaded from the BioGRID database. PPI: protein-protein interactions; BioGRID: Biological General Repository for Interaction Datasets.

Figure S3. Ishikawa cells were immunostained with anti- β -catenin (red) and anti-E-cadherin (green) antibodies and visualized with confocal microscopy. DAPI (blue) was used to indicate cell nuclei. Scale bar = 250 μ m.
